

In The Specification:

The Specification was amended to add headings, and correct punctuation, to comply with US patent practice. Also, a Brief Description of the Drawings was added. Trademarks in the Examples were capitalized. It is believed no new matter was added by these amendments.

The following claim of priority is added at the beginning of the application: "This application claims benefit, under U.S.C. §119 or §365 of French Application Number 03.00350, filed January 13, 2003; and PCT/FR2004/000048 filed January 13, 2004."

The Abstract found on the face of the PCT/FR04/000048 patent application (Published as WO 2004/072180) was added as the last page of the Specification.

A Substitute Specification is attached incorporating these amendments.
